

# CALL FOR PAPERS

**ICTS 2022**  
**Oct 21-22, 2022**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTS 2022 : International Conference on Transportation and Safety is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Transportation and Safety. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transportation safety  
Safety and security applications in transportation engineering  
Accident prevention and analysis applications in transportation engineering  
Traffic engineering and traffic security  
Accident analysis and prevention  
Secure transportation  
Traffic security  
Infrastructure design

Driver behavior and human factors  
Traffic control and traffic operations  
Crash data collection and analyses  
Safety information and communication systems  
Advanced and emerging vehicle and network technologies  
Safety policy and planning  
Security issues of transportation systems and networks  
Emergency and incident planning and response
