

CALL FOR PAPERS

ICTS 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTS 2022 : International Conference on Transportation and Safety is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Transportation and Safety. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transportation safety
Safety and security applications in transportation engineering
Accident prevention and analysis applications in transportation engineering
Traffic engineering and traffic security
Accident analysis and prevention
Secure transportation
Traffic security
Infrastructure design

Driver behavior and human factors
Traffic control and traffic operations
Crash data collection and analyses
Safety information and communication systems
Advanced and emerging vehicle and network technologies
Safety policy and planning
Security issues of transportation systems and networks
Emergency and incident planning and response
