

CALL FOR PAPERS

ICNCICT 2022
Oct 28-29, 2022
Los Angeles, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNCICT 2022 : International Conference on Networking, Communication, Information and Computer Technologies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Networking, Communication, Information and Computer Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electronics and Communication

Engineering

Nanoelectronics and
microelectronics

Power and applied electronics

Microprocessor and microcontroller

Very large scale integration

Micro scale fabrication

Electrical machines and drive
systems

Electric vehicle technologies

Electrotechnologies

High voltage and insulation
technology

Power electronics and drive
systems

Power quality and electromagnetic
Compatibility

Power system reliability and
security

Power systems communication

Semiconductor technology

Signal and image processing

Transmission of numerical images

Embedded system security

Intelligent control

FPGA in outer space

Nuclear microbatteries

Nanotechnology

Nanomachines

Humanoid robots
