

# CALL FOR PAPERS

**ICAEPM 2022**  
**Oct 21-22, 2022**  
**Athens, Greece**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEPM 2022 : International Conference on Agricultural Engineering and Pest Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Engineering and Pest Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural engineering  
Abiotic disorders in plants  
Plant protection science  
Fertilizers and pesticides  
Ecologically based pest management  
Insect pest control management  
Agricultural and silvicultural pest management  
Urban pest management

Control methods and alternatives  
Zoonoses and parasites  
Integrated crop management  
Drones in agriculture  
Invasive vertebrates  
Biological control of rodent pests  
Behaviour of pesticides in air, soil and water  
Big data and data mining for agricultural information systems
