

CALL FOR PAPERS

ICAPC 2022
Oct 21-22, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPC 2022 : International Conference on Applied Polymer Composites is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applied Polymer Composites. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applied Polymer Composites
Amorphous and semi-crystalline
polymer blends
Applied Polymer Composites
Cellular Polymers
Continuous Fibre / Thermoset
Composites
Interpenetrating networks
Miscible and compatible polymer
blends
Molecular composite and self
reinforced blends
Nanocomposites,

Natural Fibre / Thermoplastic
Composites molecular composites and
polymer blends for commercial,
engineering, high tech and
aerospace applications
Particulate, short fiber,
continuous fiber and nano polymeric
composites
Polymeric Composites and Polymer
Blends
Polymers and Polymer Composites
Polymers from Renewable Resources
Progress in Rubber, Plastics and
Recycling Technology
Rubber toughened and elastomeric
blends
Thermoplastic, thermoset and
elastomeric matrix
