

CALL FOR PAPERS

ICBBR 2022
Oct 21-22, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBBR 2022 : International Conference on Behavior-Based Robotics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Behavior-Based Robotics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Behavior-based robotics
Behavior-based autonomous robotic systems
Principles of behavior-based autonomous robotic systems
Design technologies for behavior-based autonomous robotic systems
Behavior-based autonomous robotic systems and applications
Biological and psychological models of behavior,

Use of knowledge and learning in autonomous robots
Behavior-based robotics, artificial intelligence and behavior
Hybrid robot architectures
Modular perception, robot colonies, and trends in robot intelligence
Embodied cognitive science
Hierarchical control system
