

CALL FOR PAPERS

ICBPMEA 2022
Oct 21-22, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBPMEA 2022 : International Conference on Business Process Management and Engineering Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Business Process Management and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Business process management
Advances in business process management
Business process analysis
Business process execution
Business process matching
Business process modelling

Complex event processing
Compliance of business processes
Monitoring of business processes
Similarity of business processes
Business process engineering and reengineering
Process mining
