

# CALL FOR PAPERS

**ICCRFITCRFIT 2022**  
**Oct 21-22, 2022**  
**Athens, Greece**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCRFITCRFIT 2022 : International Conference on Chipless Radio-Frequency Identification Technologies and Chipless Radio-Frequency Identification Tags is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chipless Radio-Frequency Identification Technologies and Chipless Radio-Frequency Identification Tags. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chipless RFID tags/sensors  
Internet of Things  
Industrial, security and anticounterfeiting applications  
Extreme environment applications  
Chipless reader  
Data processing

Innovative materials for chipless RFID sensors  
Green chipless RFID sensors/tags  
Ink-jet printed, 3D-printed and dielectric chipless RFID tags/sensors  
Chipless RFID system  
Novel measurement techniques for robust and reliable decoding  
Semi passive chipless RFID tags/sensors
