

CALL FOR PAPERS

ICDECC 2022
Oct 21-22, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDECC 2022 : International Conference on Desert Ecosystems and Climate Change is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Desert Ecosystems and Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Desert ecosystems

Characteristics and climate of deserts

Biological diversity in desert ecosystems

Impacts of climate change and global warming on desert ecosystems

Climate adaptation strategies and actions for desert systems

Microbial diversity in desert ecosystems

Land degradation and development

Restoration of desert ecosystems

Locations and unique environments of deserts

Disturbances and natural recovery

Desert restoration techniques
