

CALL FOR PAPERS

ICEIATPP 2022
Oct 21-22, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEIATPP 2022 : International Conference on Environmental Impact Assessment and Thermal Power Plants is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Impact Assessment and Thermal Power Plants. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental impact assessment	
Necessity of environmental impact assessment	
Methodology of environmental impact assessment	
Environmental impact assessment regulation	
Management plan	
Sustainable development	
Methods	
Risk analysis	
Risk assessment	
Identification of impact areas	
Water resource project	
Hydroelectricity project	
Navigation project	
	Tidal hydro electricity project
	Wave energy generation
	Wind energy project
	Geothermal energy
	Solar energy
	Thermal power plants
	Biomass or biogas power plant
	Industries
	Data collection
	Prediction
	Assessment
	Industrial products
	Genetically modified plants
