

CALL FOR PAPERS

ICFACS 2022
Oct 21-22, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFACS 2022 : International Conference on Fuzzy Adaptive Control System is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fuzzy Adaptive Control System. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fuzzy adaptive control
Advances in fuzzy adaptive control
Fuzzy adaptive control and controllers
Adaptive and learning control theory
Adaptive control of processes
Data based auto-tuning of the controller
Estimation and identification and its application to control design
Fuzzy control
Fuzzy control and robotics
Fuzzy applications

Soft computing/computational intelligence in control systems
Fuzzy modeling and simulation
Cooperative control
Hybrid intelligent control
Adaptive control
Robust control
Modelling and simulation
Knowledge based control systems
Control applications
