

CALL FOR PAPERS

ICFMCCS 2022
Oct 21-22, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMCCS 2022 : International Conference on Forest Management for Carbon Capture and Storage is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forest Management for Carbon Capture and Storage. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forest carbon stocks and changes
Carbon modelling and validation
Forest production and nutrient
cycling
Carbon reservoir assessment
Deforestation

Permanence of forest sinks
Reference levels
Forest management
Carbon stock changes
