

CALL FOR PAPERS

ICQEPO 2022
Oct 21-22, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQEPO 2022 : International Conference on Quality Engineering and Process Optimization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quality Engineering and Process Optimization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Quality engineering
- Advances in quality engineering
- Knowledge management
- Collaborative processes
- Experimental design and analysis
- Measurement system analysis
- Process modeling
- Product and process optimization

- Quality control and process monitoring
- Regression and reliability
- Response surface methodology
- Robust parameter design
- Six sigma method enhancement
- Statistical engineering
- Test and evaluation techniques
