

CALL FOR PAPERS

ICREEEM 2022
Oct 21-22, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICREEEM 2022 : International Conference on Renewable Energy Efficiency and Energy Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Renewable Energy Efficiency and Energy Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Renewable energy and efficiency
Ecological, operational, economic
and social efficiency of renewable
energy
Energy efficiency and energy
management
Renewable energy efficiency systems
and technologies
Renewable energy efficiency for
regional development
Heating, ventilation, air
conditioning and heat pump
Efficiency in renewable, green and
alternative energy
The impact of climate change on
energy systems
Cogeneration and distributed
generation

Smart grid and electric metering
innovations
Integrated building automation and
energy management
Solar and fuel cell technologies
Thermal storage and load
management
Energy-efficient technologies for
renewable energy
Low cost/energy efficient
materials
Energy options for buildings
Building design for energy
efficiency and optimal performance
Building health system monitoring
