

# CALL FOR PAPERS

**ICTICS 2022**  
**Oct 21-22, 2022**  
**Athens, Greece**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTICS 2022 : International Conference on Teleinformatics, Information and Communication Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Teleinformatics, Information and Communication Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Teleinformatics

Applications of teleinformatics

Advanced teleinformatics and telecommunication systems

Telecommunications and teleinformatics

Information technology and communications

Communication network architectures

Local networks

Network interconnection

Operative system network

Distributed systems

TCP/IP communication protocols

Communication network laboratory

Telecommunication networks

Broadband networks

Wireless networks

Security protocol and services

Knowledge management

The web

Computer networks

Information asset and transaction costs

Cybernetic organizations

Systems development and methods

Data management

Data modelling

Data management systems

The promise of web services
