

# CALL FOR PAPERS

**ICSPEIES 2022**  
**Oct 25-26, 2022**  
**Bali, Indonesia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPEIES 2022 : International Conference on Smart Power Engineering and Internet Energy Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Smart Power Engineering and Internet Energy Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy Science and Energy  
Technology

Solar Energy

Wind Energy

Nuclear Energy

Wave Energy

Energy-Efficiency Technologies

Energy Economics

Electro-Chemistry

New Energy Vehicles, Electric  
Vehicles

Internet Energy Equipments

Green Building Materials and

Energy-saving Buildings

Renewable Energy Sources and  
Systems

Battery Technology - Materials  
and Systems

Other Energy Storage Systems

Power System

Power System Operation and  
Management

Power System Generation,  
Transmission, and Distribution

Power System Condition Monitoring

Power System Stability

Power System State Estimation

Modeling and Simulation of Large  
Power Systems

Flexible AC Transmission Systems  
(FACTS)

Micro-grid and Nano-grid

Energy management of Microgrid

Building Energy Management (BMS)
