

CALL FOR PAPERS

ICAME 2022
Oct 25-26, 2022
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAME 2022 : International Conference on Automation and Mechatronics Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automation and Mechatronics Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced Manufacturing
Advanced Motion Control
Applications in Systems and
Engineering
Automation and Artificial
Intelligence
Automation, Control and Robotics
Automotive and Transportation
Systems
CFD and Thermal Science
Engineering
Computer Application Technology
Computer Integrated Manufacturing
Computer System Structure
Control Engineering
Control System Modeling and
Simulation technology
Electronic Automation

Embedded Systems
Fault detection and Diagnosis in
Mechatronics Systems
Fluid Power Transmission and
Control
Human-Machine Interface
Industrial Robotics and Automation
Intelligent Control
Intelligent Optimization Algorithms
and Applications
Intelligent Traffic Control
Machine Vision
Manufacturing Engineering
Mechatronics in Energy Systems
Micro Mechatronics
Micro and Nano fabrication
