

CALL FOR PAPERS

ICPOC 2022
Oct 25-26, 2022
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPOC 2022 : International Conference on Physical Oceanography and Climate is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Physical Oceanography and Climate. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Physical oceanography
Modern observational physical
oceanography
Marine pollution
Oceans and climate change
Coastal oceanography
Ocean currents

Temperature, salinity and density
Air-sea interaction
Heat flux
Theory of large-scale ocean
circulation
Dynamical meteorology
