

# CALL FOR PAPERS

**ICSI 2022**  
**Oct 25-26, 2022**  
**Barcelona, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSI 2022 : International Conference on Sustainable Infrastructure is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Infrastructure. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Situation: Current and Projected  
Analysis of infrastructure  
conditions  
Global infrastructure assessments  
Infrastructure problems for  
developing nations  
Infrastructure for a sustainable  
future  
Financing Infrastructure Projects  
Financing approaches, constraints  
Financing large projects: domestic  
and global  
Innovative financing mechanisms  
Making the financial case for  
sustainable infrastructure  
Case examples: what works, doesn't  
work

Cross-cutting Issues  
Infrastructure and the water/energy  
nexus  
Sustainability in engineering  
education  
Sustainability accreditation and  
certification  
Infrastructure asset management  
Applying systems thinking to  
infrastructure planning  
Materials, Tools, and  
Methodologies  
Sustainable construction materials  
Life-cycle assessments  
Risk assessments  
Using BIM on sustainable  
infrastructure projects
