

# CALL FOR PAPERS

**ICNMGS 2022**  
**Oct 25-26, 2022**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNMGS 2022 : International Conference on Nutritional Management of Gastrointestinal Diseases is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nutritional Management of Gastrointestinal Diseases. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nutritional management of gastrointestinal disease  
Malnutrition in gastrointestinal disorders: detection and nutritional assessment  
Enteral access and associated complications  
Parenteral nutrition  
Nutritional therapy in adult short bowel syndrome patients with chronic intestinal failure  
Nutritional aspects of acute pancreatitis  
Nutritional therapy in chronic pancreatitis  
The role of diet in the treatment of irritable bowel syndrome

Nutritional consideration in celiac disease and nonceliac gluten sensitivity  
Nutritional interventions in the patient with inflammatory bowel disease  
The role of prebiotics and probiotics in gastrointestinal disease  
Small intestinal bacterial overgrowth: nutritional implications, diagnosis, and management  
Nutritional interventions in chronic intestinal pseudo obstruction  
The need to reassess dietary fiber requirements in healthy and critically ill patients  
Nutritional therapy in gastrointestinal cancers  
Nutritional considerations in liver disease
