

# CALL FOR PAPERS

**ICAET 2022**  
**Oct 21-22, 2022**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAET 2022 : International Conference on Advanced Engine Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Engine Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced engine technology  
Valves and camshafts  
Camshaft chain belt and gear train drives  
Engine balance and vibration  
Combustion chamber design and engine performance  
Induction and exhaust systems  
Supercharging systems  
Carbureted fuel systems

Petrol injection systems  
Ignition systems  
Engine testing equipment  
Diesel in-line fuel injection pump systems  
Diesel rotary and unit injector fuel injection pump systems  
Emission control  
Cooling and lubrication systems  
Alternative power sources
