

# CALL FOR PAPERS

**ICBDP 2022**  
**Oct 21-22, 2022**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBDP 2022 : International Conference on Biogeography and Distribution Patterns is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biogeography and Distribution Patterns. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biogeography  
Biogeographical models  
Biogeography and phylogeography  
Historical biogeography  
Patterns of species' ranges  
Biogeography and plate tectonics  
Earth's climate  
Distribution patterns

Current patterns of diversity on earth  
Countryside biogeography  
Island biogeography  
Biogeographic scales  
Microbial biogeography  
Dispersal biogeography  
Vicariance biogeography
