

CALL FOR PAPERS

ICCA 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCA 2022 : International Conference on Cardiac Arrhythmias is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cardiac Arrhythmias. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bradiarrhythmia
Supraventricular tachycardia
Atrial fibrillation
Cardia pacemakers and
defibrillators
Catheter ablation of cardiac
arrhythmias
Tissue graft cardiac cell
replacement
Cardiac stem cells
Stem cell homing and engraftment
Cardiac remodeling
Advancements in interventional
cardiology
Valve replacement

Angioplasty
Interventional paediatric
cardiology
Interventional cardiac devices
Electrocardiogram
Chest radiographs
Echocardiography
Exercise stress testing
Nuclear cardiology
Cardiac CT angiography
Cardiac magnetic resonance imaging
Catherization, Cardiac Angiography,
IVUS and FFR
