

# CALL FOR PAPERS

**ICCAIP 2022**  
**Oct 21-22, 2022**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCAIP 2022 : International Conference on Computer Analysis of Images and Patterns is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Analysis of Images and Patterns. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- 3D Vision
- 3D TV
- Biometrics
- Color and texture
- Document analysis
- Graph-based Methods
- Image and video indexing and database retrieval
- Image and video processing
- Image-based modeling
- Kernel methods
- Medical imaging

- Mobile multimedia
- Model-based vision approaches
- Motion Analysis
- Non-photorealistic animation and rendering
- Object recognition
- Performance evaluation
- Segmentation and grouping
- Shape representation and analysis
- Structural pattern recognition
- Tracking
- Applications
