

CALL FOR PAPERS

ICCSCPS 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSCPS 2022 : International Conference on Computer Science and Computer Security is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Science and Computer Security. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer science	Automata, logic and games
Computer system	Quantum computer science
Complex systems	Concurrent algorithms and data structures
Design and analysis of algorithms	Advanced security
Logic and proof	Internet security
Models of computation	Cyberwarfare
Intelligent systems	Information security
Computer security	Mobile security
Computational complexity	Network security
Lambda calculus and types	Application security
Computer animation	Antivirus software
Machine learning	Secure coding
Computational linguistics	Security by design
