

# CALL FOR PAPERS

**ICEBA 2022**  
**Oct 21-22, 2022**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEBA 2022 : International Conference on Enzymes and their Biotechnological Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Enzymes and their Biotechnological Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biotechnological Applications of  
Proteins and Enzymes  
Applied Research in Nonindustrial  
Laboratories  
Bacteria as Sources of Enzymes  
Industrial Approach to Enzyme  
Production  
Development of New Enzyme  
Preparations  
The Microbial Production of  
Enzymes  
Complex Nature and Function of  
Enzyme Systems  
Problems Related to Enzyme  
Production  
Production of Enzymes and Proteins  
in Tissue Culture  
Exploitation of Soluble and  
Insolubilized Enzymes  
Protein Immobilization and Affinity  
Chromatography  
Industrial Application of  
Immobilized Enzymes

Comparison of Cells and Enzymes as  
Industrial Catalysts  
Enzyme Immobilization  
Effectiveness of Enzyme-Membrane  
Filtration Reactors  
Exploitation of Multienzyme Systems  
for Synthesis  
Biotransformation of Steroid  
Hormones and Antibiotics  
Medical Applications of Proteins  
and Enzymes  
Chemical Features of Zinc Enzymes  
Novel Application for Antibodies  
Economic, Enzymological, and  
Practical Problems in the  
Technological and Analytical  
Application of Immobilized Enzymes  
Medical Applications of Immobilized  
Proteins and Enzymes  
Muscle and Connective Tissue  
Proteins as Food
