

# CALL FOR PAPERS

**ICEESS 2022**  
**Oct 21-22, 2022**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEESS 2022 : International Conference on Electrical Engineering and System Specification is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Engineering and System Specification. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Circuits, devices and systems  
Materials for electrotechnics  
System specification and modeling  
Smart grids and renewable energy  
Computation intelligence in electrical engineering  
Biomedical electronics and bioinformatics  
Distributed generation, fuel cells and renewable energy systems  
System design, synthesis and optimization  
Computers, software and applications  
Control and robotics  
Simulation and validation  
Signal and multimedia processing  
Design of low power systems

Temperature aware design  
Power electronics and energy systems  
Power electronics and power drives  
Electric vehicle technologies  
Electronics and electrical engineering  
Computer science applications  
Nanoelectromechanical system  
Measuring technology and instruments  
Photonics and optoelectronics  
Power estimation and optimization  
Temperature modeling and management  
Emerging technologies, systems and applications  
Formal methods and verification
