

# CALL FOR PAPERS

**ICGEGG 2022**  
**Oct 21-22, 2022**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGEGG 2022 : International Conference on Green Energy and Greenhouse Gas is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Energy and Greenhouse Gas. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Carbon trading and taxation  
Climate change and energy industry  
Clean energy technologies  
Design of energy markets  
Distributed generation issues  
Energy prices and uncertainties  
Energy and sustainable development  
Energy efficiency challenges  
Energy and environmental policy  
Energy demand and economic growth  
Energy markets and regulation  
Geopolitics of oil and natural gas  
Greenhouse gas abatement costs and potentials

Integration of intermittent power sources  
Investment issues in liberalized markets  
Market power issues  
Oil and gas transportation and pipelines  
Oil reserves and production  
Prospects of CCS technologies  
Prospects for nuclear power  
Prospects for alternative transportation fuels  
Power and gas trade under volatile prices  
Regulation and regulation uncertainties  
Renewable energy technologies and markets  
Risk management issues in the energy sector  
Security of supply issues
