

CALL FOR PAPERS

ICISPCS 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICISPCS 2022 : International Conference on Intelligent Signal Processing and Communication Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Intelligent Signal Processing and Communication Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital Communications
Space-Time Coding
OFDM and CDMA
Mobile and Wireless Communications
Networks and QOS
Image Processing
DSP For Communications
Video and Multimedia Signal
Processing
Communications Receivers
Signal Processing and Applications

Biomedical Signal and Image
Processing
Speech and Audio Processing
Adaptive and Non-Adaptive Filtering
and Implementations Applications
Electrical Machines and Drives
Control design methods
Discrete and Hybrid systems
Control Applications
Nonlinear Control and Applications
Power Systems
Control System Modeling and
Identification
