

CALL FOR PAPERS

ICPCG 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPCG 2022 : International Conference on Pediatric Cardiology and Genetics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pediatric Cardiology and Genetics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nutrient deficiencies	Bone infections
Pediatric obesity	Skin infections
Child psychology	Joint infections
Pediatric behavioural studies	Blood infections
Pain relief therapies and management	Parasitic infections
Diagnosis and treatment	Bacterial infections
Non-invasive neonatology	Viral infections
Neonatal resuscitation	Travel related infections
Role of progenitor cells in neonatal physiology and necrotizing enterocolitis	Influenza and pneumonia
Neonatal nutrition	Allergy and asthma
Bilirubin encephalopathy	Sinusitis
Neonatal polycythemia	Allergic rhinitis
