

CALL FOR PAPERS

ICSFR 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSFR 2022 : International Conference on Shale Fuel Reserves is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Shale Fuel Reserves. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Carbon trading and taxation
Climate change and energy industry
Clean energy technologies
Design of energy markets
Distributed generation issues
Energy prices and uncertainties
Energy and sustainable development
Energy efficiency challenges
Energy and environmental policy
Energy demand and economic growth
Energy markets and regulation
Geopolitics of oil and natural gas
Greenhouse gas abatement costs and potentials

Integration of intermittent power sources
Investment issues in liberalized markets
Market power issues
Oil and gas transportation and pipelines
Oil reserves and production
Prospects of CCS technologies
Prospects for nuclear power
Prospects for alternative transportation fuels
Power and gas trade under volatile prices
Regulation and regulation uncertainties
Renewable energy technologies and markets
Risk management issues in the energy sector
Security of supply issues
