

CALL FOR PAPERS

ICWFMSP 2022
Oct 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWFMSP 2022 : International Conference on Wildland Fire Management, Safety and Protection is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildland Fire Management, Safety and Protection. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildland fire management
Wildland fire management strategies
Wildland fire prevention and suppression
Wildland fire preparedness
Hazardous fuels reduction
Fire treatments

Wildfire safety
Fire management
Cooperation and collaborative planning
GIS solutions for wildland fire suppression
Fire management and invasive plants
Forest fire disaster management
