

# CALL FOR PAPERS

**ICABDC 2022**  
**Oct 28-29, 2022**  
**Los Angeles, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABDC 2022 : International Conference on Advanced Bridge Design and Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Bridge Design and Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bridge engineering  
Bridge analysis, design and assessment  
Innovative bridge construction  
Bridge technology  
Bridge asset management  
Bridge management strategies  
Bridge engineering heritage  
Sustainability and life cycle cost  
Codes and standards  
Material technology  
Field applications and case studies  
Lessons learnt from bridge damages and failures  
Load assessment

Etymology and history of bridge  
Types of bridges  
Fixed or movable bridges  
Double-decked bridges  
Three-way bridges  
Aesthetics  
Architecture, building, construction, infrastructure and environment  
Architecture, construction and environmental engineering  
Building electrical systems  
Building materials and constructions  
Building mechanical systems  
Building structural systems  
Building, construction and interiors
