

CALL FOR PAPERS

ICAMBSALIO 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMBSALIO 2022 : International Conference on Agent-Based Manufacturing Systems, Agent Level, Interaction and Organization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agent-Based Manufacturing Systems, Agent Level, Interaction and Organization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agent-based manufacturing systems
Agent-based systems for intelligent manufacturing
Artificial intelligence in manufacturing
Multi-agent systems and technologies
Agent-based manufacturing enterprise infrastructure
Integration of material supply and management

Dynamic scheduling and rescheduling
Modeling of agent-based manufacturing systems
Agent technologies
Agent level, interaction and organization
Agent-based simulation
Coordination and control in distributed and agent-based manufacturing systems
