

CALL FOR PAPERS

ICBSO 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSO 2022 : International Conference on Bioelectric Sensors and Olfactory is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioelectric Sensors and Olfactory. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioelectric sensors
Bioelectric
Bioelectric profiling
Biosensor
Electrophysiology
Impedimetric
Impedance spectrometry
Implantable
Medical diagnostics

Microbial fuel cell
Microsensors
Nanosensors
Olfactory
Patch-clamp
Potentiometry
Signal transduction
Single cell analysis
Toxicology
