

CALL FOR PAPERS

ICCATT 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCATT 2022 : International Conference on Computer-Aided Translation Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer-Aided Translation Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Matching and retrieval of segments
in translation memories
Integration of TM and MT
suggestions
Integration of client-specific
terminology in neural MT
Multilingual terminology
extraction
Quality estimation of MT and TM
suggestions
Translation quality assurance
Automatic methods for translation
memory cleaning and maintenance
Productivity measurements

Effort prediction and price
estimation
Methods for collaborative
translation
Post-editing guidelines and best
practices
Intelligent interface design
User-adaptive systems
Automatic speech recognition for
dictating translations
Integration with text authoring
tools
