

CALL FOR PAPERS

ICCBC 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBC 2022 : International Conference on Combinatorial Biology and Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Combinatorial Biology and Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Combinatorial biology and evolution
Combinatorics of biological networks
Applications of combinatorics to molecular biology
Graph theory and combinatorial biology
Combinatorial thinking in chemistry and biology
DNA technologies
Combinatorial chemistry

Intermediary metabolism
Molecular diversity
Recombinant DNA techniques
Bacteria and fungi
Combinatorial optimization in molecular biology
Computational and combinatorial biology
