

CALL FOR PAPERS

ICCCNA 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCNA 2022 : International Conference on Computer-Communication Networks and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer-Communication Networks and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer-communication networks
Computer communications
Information and communication technology
Information management
Approaches, objectives and performance considerations
Data communications
Data networking and the internet
Communications model
Information, time and space
Internet-based applications
Protocol architecture
Data transmission
Internet and transport protocols

Internet applications
Electronic mail and network management
Internet directory service and World Wide Web
Multimedia
Computer-oriented communication
Telecommunications
Radio and television broadcasting
Analog and digital data transmission
Transmission media
Signal encoding techniques
Digital data communication techniques
Data link control protocols
Multiplexing
