

CALL FOR PAPERS

ICCMA 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMA 2022 : International Conference on Control Methods and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Control Methods and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Adaptive Control
Robust Control
Optimal Control
Process Control
Stochastic Systems Control and
Remote Supervisory Control

Manufacturing Systems Control
Co-Operative Control
Predictive, Intelligent and Servo
Control
Cooperative, Coordinated and
Decentralized Control
Advanced Process Control
