

CALL FOR PAPERS

ICDRSA 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDRSA 2022 : International Conference on Domestic Robotic Systems and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Domestic Robotic Systems and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Domestic robots	
Advanced domestic robots and applications	
Domestic robots, advantages and disadvantages	
Nature-inspired approaches to domestic robots	
All aspects of domestic robot safety	
Self-configuration and adaptation of domestic robots	
Groups of domestic robots	
Smart home environments	
Domestic robot interaction	
Behavioral paradigms and architectures for domestic robots	
	Interactions between robots, robots and other devices
	Domestic robot design
	Domestic floor-cleaning robots
	Pool-cleaning robots
	windows-cleaning robots
	Indoor robots
	Outdoor robots
	Toys
	Social robots
