

CALL FOR PAPERS

ICECM 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECM 2022 : International Conference on Epidemiology and Chemical Microbiology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Epidemiology and Chemical Microbiology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical biology
Chemical microbiology
Microbial metabolism
Microbial genetics
Epidemiology of bacterial infections
Veterinary epidemiology
Plant disease epidemiology
Microbial assay

Infectious diseases
Microbial diagnosis
Molecular applications
Molecular pathology
Clinical pathology
Veterinary pathology
Advancements in diagnostic pathology
