

# CALL FOR PAPERS

**ICESBT 2022**  
**Oct 04-05, 2022**  
**Tbilisi, Georgia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESBT 2022 : International Conference on Energy-Saving Building Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy-Saving Building Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy-saving buildings  
Energy-saving construction materials  
Renewable energy technologies  
Energy-efficient building design and construction practices  
Non-conventional materials and technologies  
Nonconventional concrete technologies  
Resource efficiency in the building  
High performance mechanical systems

Energy efficient lighting  
Radiant floor heating  
Solar water heater  
Geothermal heat pumps  
Green building technology  
Green building materials  
Green site selection and planning
