

CALL FOR PAPERS

ICGCSP 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGCSP 2022 : International Conference on Green Chemistry, Synthesis and Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Chemistry, Synthesis and Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced green chemistry
Sustainable chemistry
Green catalytic modulations
Green biofuels and energy
Green synthesis and designing

Green analytical methodologies
Green processing and solar energy
Major challenges in renewable and sustainable energy
Green energy prospects and technology
