

# CALL FOR PAPERS

**ICIMP 2022**  
**Oct 04-05, 2022**  
**Tbilisi, Georgia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIMP 2022 : International Conference on Intelligent Materials and Processes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Intelligent Materials and Processes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent materials  
Intelligent inorganic non-metallic material  
Intelligent polymer materials  
Intelligent polymer membrane materials  
Intelligent polymer adhesives  
Intelligent polymer matrix composites  
Intelligent material and structure  
Optical fiber and semiconductor materials  
Spaceintelligence material  
Shape memory materials  
Textile intelligence material  
Medical intelligent materials  
Military intelligence material

Building intelligent material  
Conductive materials  
Adaptive material and structure  
Environmental protection with intelligence material  
Materials/manufacturing processes  
Process development and process control  
Materials forming and machining  
Modelling, simulation and optimisation of advanced and nano  
Application of nanomaterials in mining, metallurgical, electrical, chemical and pharmaceutical and other industries  
Surface engineering and coatings  
New material characterization methods  
Novel nanomanufacturing methods
