

# CALL FOR PAPERS

**ICLSSES 2022**  
**Oct 04-05, 2022**  
**Tbilisi, Georgia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLSSES 2022 : International Conference on Land Surveying Equipment and Standards is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Land Surveying Equipment and Standards. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Land surveying  
Principles and applications  
Topographic surveying and mapping  
Landscape features for general mapping purposes  
Survey of local topographic features for engineering purposes  
Cadastral surveying  
Surveying  
Cartography  
Geodesy  
Mapping and remote sensing

Land surveying and planning  
Land surveying and GPS  
Land surveying equipment  
Land surveying remote sensing  
Innovative land surveying and land registration  
Terrain analysis and remote sensing  
Mapping and monitoring  
Remote sensing and image interpretation  
Land surveying standards and procedures
