

CALL FOR PAPERS

ICMBC 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBC 2022 : International Conference on Modular Building and Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Modular Building and Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Modular constructions
Safety advantages of modular construction
Modular construction design, engineering and fabrication
Attributes of modular construction

Dimensional planning
Stability and structural integrity
Service interfaces
Acoustic performance
