

CALL FOR PAPERS

ICMCSM 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCSM 2022 : International Conference on Modern Construction Systems and Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Modern Construction Systems and Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Modern methods of construction
Hybrid concrete construction
Precast flat panel system
3D volumetric construction
Tunnel form
Flat slabs
Thin joint masonry

Insulating concrete formwork
Precast foundations
Low cost housing
Foundation system
Pre-stressing systems
Construction equipment planning
Bridge launching techniques
