

CALL FOR PAPERS

ICPACA 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPACA 2022 : International Conference on Preparative Acetylenic Chemistry and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Preparative Acetylenic Chemistry and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Metallation of Acetylenes
Functionalization of Metallated
Acetylenes with Alkyl Halides
Ethylation and Alkynylation of
Carbonyl Compounds
Carboxylation, Alkylation and
Related Reactions
Silylation, Stannylation and
Phosphorylation
Sulfenylations and Related
Reactions

Halogenation and Cyanation
Triple Bond by Elimination and
Addition-Elimination Reactions
Couplings of Acetylenes Assisted by
Copper and Palladium Compounds
Base-Promoted Interconversions of
Acetylenes
Preparations of Acetylenic
Derivatives
