

CALL FOR PAPERS

ICRAAEM 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRAAEM 2022 : International Conference on Recent Advances in Applied and Engineering Mathematics is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Advances in Applied and Engineering Mathematics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applied and Engineering Mathematics
Algorithms
Applied Statistics
Chaos Systems
Coding
Combinatorial Linear Algebra
Combinatorial Problems
Combinatorial Programming
Computational Linear Algebra
Computational Programming of
Numerical
Control Theory
Convergence Analysis
Convex Programming

Cryptology
Decision Theory
Difference Equations
Dynamical Systems
Error Analysis
Estimation Theory
Numerical Linear Analysis
Numerical Methods for Ordinary and
Partial Differential Equation
Optimization Theory
Ordinary Differential Equations
Partial Differential Equations
Perturbation Problems
Probability Theory
