

CALL FOR PAPERS

ICRCEAC 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRCEAC 2022 : International Conference on Recent Challenges in Environmental and Atmospheric Chemistry is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Challenges in Environmental and Atmospheric Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Atmospheric chemistry and aerosols
Remote sensing- satellite
meteorology and climatology
Atmospheric halogen chemistry
Environmental and pollution
control

Environmental analysis and
monitoring
Atmospheric organic compounds
Environmental green chemistry
Industrial waste management
